

BSCG CERTIFIED CBD BATCH CERTIFICATION

THE GOLD STANDARD IN TESTING

11301 YI Crympic Bod Suite 885 Los Argeses, CA 90074 (800) 970-6006 www.bscg.org

The BSCG Certified CBD program provides assurance that CBD products meet specifications and will not put consumers at risk of psychoactive effects or positive drug tests in sport or workplace testing. The process starts with an initial claims, compliance and quality control process audit. Every batch is tested for cannabinoid profile to verify CBD content and ensure THC levels are below regulatory limits with a daily dose limit for drug testing protection. Every batch is also screened according to the details and method detection levels outlined in our industry leading drug testing menu, which covers 500+substances on the World Anti-Doping Agency (WADA) Prohibited List and other prescription, over-the-counter, or illicit drugs. Every tenth batch is checked for a full suite of contaminants including heavy metals, pesticides, solvents and microbiological agents. This Batch Certification verifies that samples of the product identified by brand name, product name, and batch number below has been tested at our ISO/IEC 17025 accredited laboratory partners and has received certification in the BSCG Certified CBD program.
